Each course has an optional final of comprehensive or concluding assessment, whichever is most appropriate for students and the course content and standards. Not all assessments must take the form of a traditional exam. In fairness to the students, however, **no other major assessments are to be given during finals week outside of the assigned department testing days** so that students can perform their best for each department assessment..

Teachers, please provide students with materials and advance notice of expectations for final exams and concluding course activities so students can appropriately manage their time. **It is a school expectation that final assessments, if a teacher chooses to use them, will be meaningful and that outcomes will be clearly recorded on semester grade reports.**

Seniors will return following exams and /or graduation if directed to do so by school administrators to meet or complete behavior and academic expectations. **Final student day and end of Semester 2 is May 30.**
